

WHAT TO REMEMBER WHEN WASHING YOUR

1. MACHINE WASH ON THE GENTLE CYCLE IN COLD WATER USING DETERGENT.

2. DO NOT USE BLEACH!

3. WASH YOUR TEAMWEAR ALONE!

For best results wash your teamwear alone or with other crew shirts and pants. This ensures that your garment doesn't get beaten up in the washing machine or pick up stains from other things in the wash.

4. PRETREAT ANY SPOTS OR STAINS WITH OXYCLEAN, SPRAY AND WASH OR SHOUT.

5. DO UP THE BUTTONS AND MAKE SURE THE VELCRO TABS ARE FASTENED.

This helps maintain the shape of your teamwear.

6. WASH YOUR TEAMWEAR INSIDE OUT.

This helps keep the colors bright.

7. DO NOT OVERDRY!

Dry in your clothes dryer on a cool setting and remove from the machine immediately to avoid wrinkles and static. You can also use Bounce or other dryer sheets.

8. STORE AWAY FROM DIRECT SUNLIGHT.

This helps prevent the fading of the colors in your teamwear. The sun will also cause the fabric, and any embroidery to age and weaken faster.
